

DIY Stacking Storage Cubbies

Addicted2DIY.com

***Before beginning this project, please read through all of the plans and the blog post. When building this project, be sure to measure your wood and cut to fit. The measurements listed are all approximates as wood dimensions can vary depending on the type of wood used and the dryness of the wood.**

Materials (to make three cubbies):

- 2 - 1" x 12" x 8' pine boards
- 1 - 1" x 6" x 8' pine board
- 2' x 4' sheet of 1/4" plywood (I used some that I already had on hand)
- Kreg Jig
- Brad Nailer
- 1 1/4" pocket screws
- 1 1/4" brad nails
- 5/8" brad nails
- Kreg Rip-Cut
- wood glue
- orbital sander
- 220 grit sandpaper

Cut List (for one cubby):

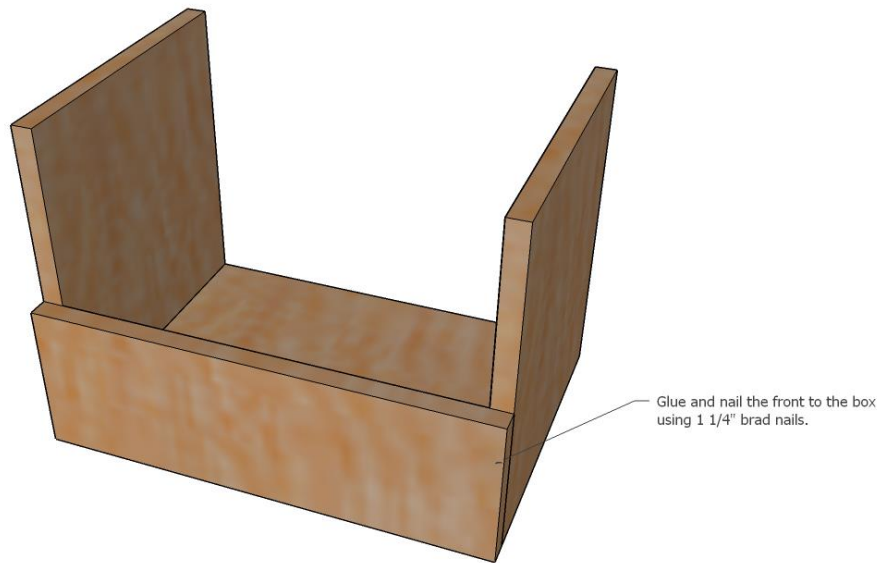

- 2 - 1" x 12" @ 12" (sides)
- 1 - 1" x 12" @ 15" (bottom)
- 1 - 1" x 12" @ 16 1/2" (top)
- 1 - 1" x 6" @ 16 1/2" (front)
- 1 - 1/4" plywood @ 12 3/4" x 16 1/2" (back)

Step 1:

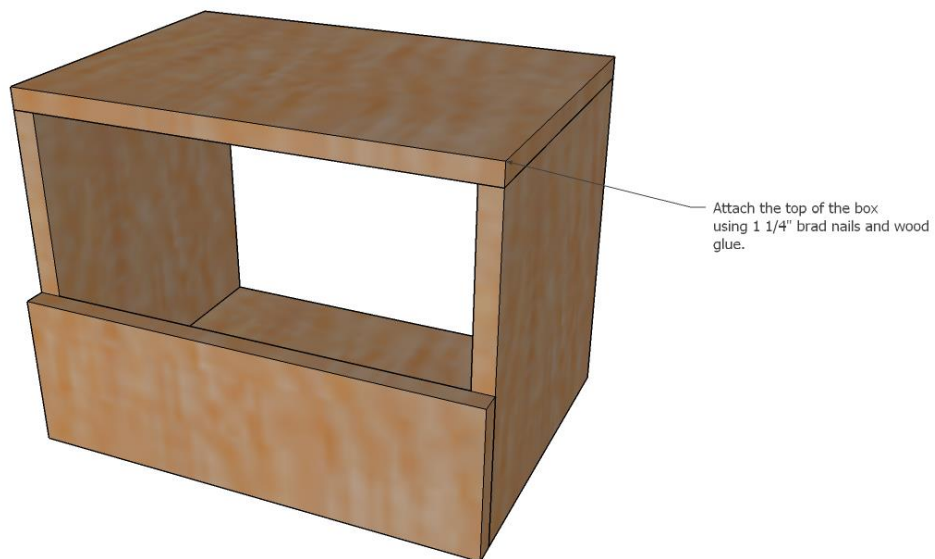

Drill 3/4" pocket holes into the bottom of the cubby. Attach the sides using wood glue and 1 1/4" pocket screws.

Step 2:

Glue and clamp the front to the cubby sides and bottom. Use 1 1/4" brad nails to attach.

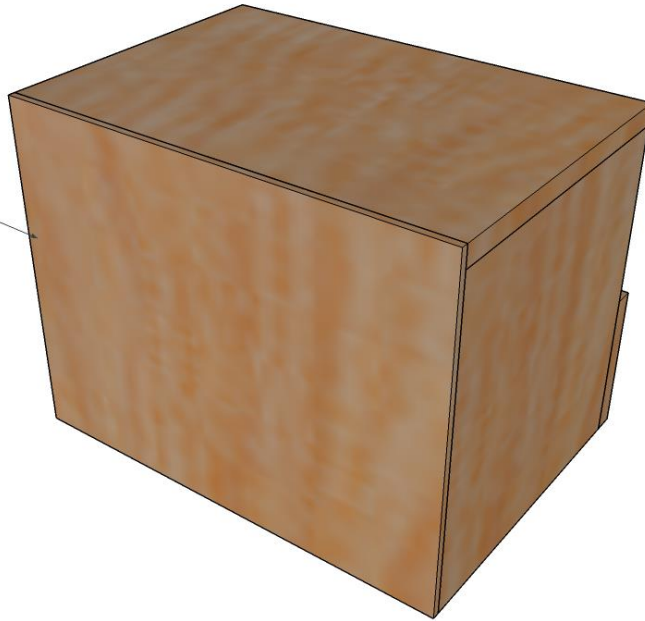

Step 3:

Attach the top of the cubby using wood glue and 1 1/4" brad nails.

Step 4:

Glue and nail the back to the box using 5/8" brad nails.

Glue and attach the back of the cubby using 5/8" brad nails. Sand the cubby down and finish with paint or stain as desired.
